EDUCATION

08/15/2022 - 05/15/2024

M.S. Computer Science
C.S.U., Long Beach **GPA: 4.0**

Computer Science Master's Program with thesis on AI/ML. I graduated 2nd in my class and introduced a novel dropout out technique in my thesis, 'Sector-Wise Dropout'.

08/15/2015 - 05/15/2020

B.S. Computer Science.
C.S.U., Long Beach

CLAYTON ASADA

Plano, TX — (916) 801 6154 — Casada94@gmail.com

PROFILE

I'm a highly motivated, results-driven software engineer with a stong background in Java development, cloud technologies, and AI/ML. I thrive in dynamic environments, consistently delivering innovative solutions that enhance system performance and drive business growth. My expertise spans across designing and maintaining applications, integrating APIs, and implementing cutting-edge technologies to meet evolving business needs. I am passionate about leveraging my skills to positively impact projects and continuously expand my knowledge in the ever-evolving tech landscape.

WORK EXPERIENCE

Software Engineer 07/15/2024 - 05/05/2025
U.S. Department of Defense

Modernize, enhance, and maintain both backend and frontend codebases. Incorporating new technologies and libraries to deliver new features and/or improve readability, testability, and maintainability.

- Frontend: develop common React.js components for multiple user-facing products
- Backend: Update and enhance Spring Boot microservices for large data processing and API's for powering client focused products

Technology Stack:

Spring Boot AWS Kafka MySql Jenkins

Achievements:

- Guided by user feedback, I created a feature to help users quickly identify the topics and context of their next task, which improved their efficiency and task throughput.

Java Developer 03/15/2021 - 07/15/2024
Tata Consultancy Services: Experian

Drive progress in a company-wide modernization and migration project. Design, develop, and maintain new applications, including database tables, for AWS cloud deployment

Spring Boot AWS Kafka MySql Jenkins

Technology Stack:

- My Hackathon idea, inspired by customer conversions, lead to implementation, completed by me, which increased yearly revenue by $800,000 (16%)
- Performance improvements of two legacy applications, resulting in 50% reduction in latency

Achievements:

Electrical Systems Technician 07/-1/2012 - 09/01/2015
United State Marine Corps
